COME TOGETHER

What makes life great? As you grow older you’ll discover it’s never just one thing. That’s why we unite comfort, design and quality in every product we make. Together, they bring out the best in your day. Every day. For you and everyone you invite.

It’s up to you to make the most of every moment. And we want to encourage you to go for it. All. The. Way. To involve all you see. All you know. All you feel. You can make it all come together.

6 REASONS TO CHOOSE HARTMAN

50 years of experience

In more than 40 countries around the world.

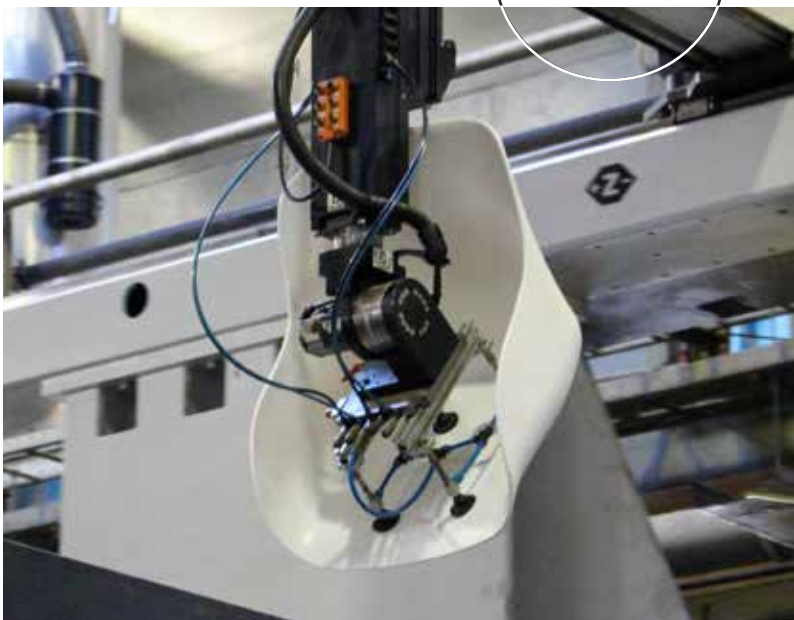
1

2

Quality control

In our own testcenter following NEN-EN-581/ DIN-NEN-581.

3



Own production location in Holland

All our products are 100% Dutch design.

Optimum service and dealer support

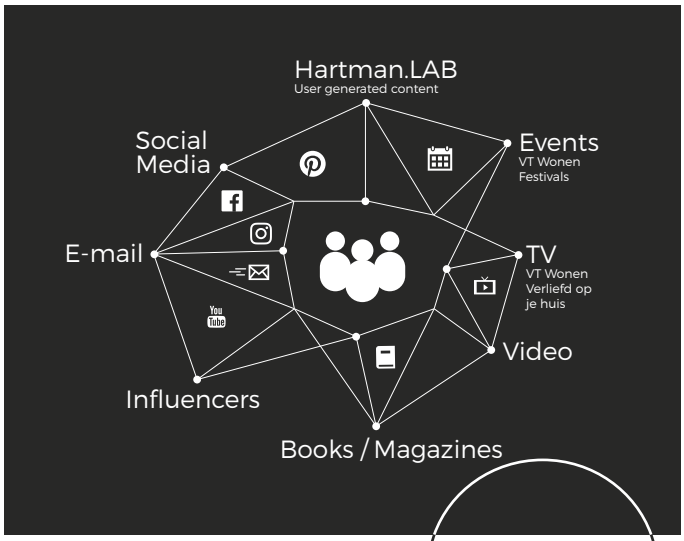
Our sales support team allows you to order spare parts and in our brand portal you can download productshots and all the advertising material you need.

4

Our warehouse is your warehouse

You no longer need to hold stock in your warehouse for this part of the collection.

5

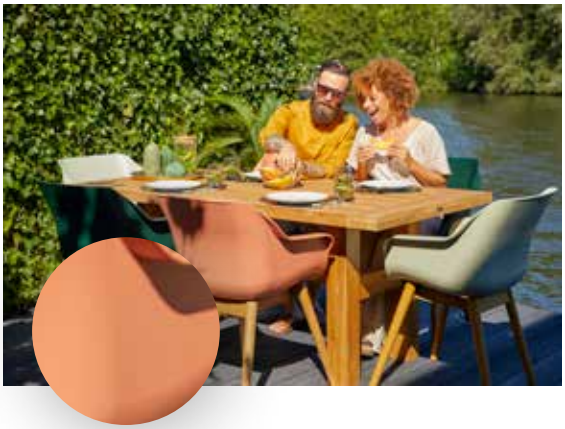


6

Marketing support

We brand Hartman in the best way possible. Creating the ultimate mix of print, events, television, magazines, online content, influencers and promoters.

Our materials



Resin

Resin is not only a material with great history in outdoor furniture. Nowadays it has become well-known for its versatility in colours, shapes, designs, adaptation and adjustment to all types of environment and is one of the most widely used materials in decoration. The resin is ecological material since it is 100% recyclable and does not require maintenance. Five years guarantee.

Aluminium

Aluminium is among the best materials you can find in the market for outdoor furniture. It is a very resistant material for rough weather conditions. It is not affected by humidity or water, but because of its trendy look, is also ideal for indoor longlisting decoration. Two years guarantee.

HPL

HPL is short for High Pressure Laminate and consists of a core of paper pulp and resin, with a top layer of melamine resin. A very hard material with a high level of abrasion resistance. This material is also resistant to strong household cleaners and solvents such as white spirit. Two years guarantee.

Topalit

Topalit restaurant table tops are designed specifically with the project market in mind, and are perfect for commercial and residential use. These table tops consist of a proprietary blend of resin and wood materials, engineered for strength and durability. Two years guarantee.

Teak

Teak is a material that will adapt to any environment or climate. The teak we use is over 30 years old and exceptionally fine and hard. We use only the finest of quality teak in our furniture (FSC and Indonesian Legal Wood). It has an exceptional resistance to weathering and is practically insensitive to moisture and insects since it has a natural antiseptic resin (techno quinine) that makes it invulnerable and protects it from the attack of various organisms. Two years guarantee.

All Weather

The Hartman All Weather collection is suitable for heavy use in extreme weather conditions. The Sunbrella fabric made with solution-dyed acrylic is resistant against long use in the sun. Thanks to the breathable function, the fabric does not develop any condens by warmth or moisture. Also after long use the fabric remains smooth, pleasant and feels comfortable. The All Weather range is incredibly easy to clean and maintain. Five years guarantee.

Ceramic

Ceramic is a perfect material for outdoor use. It is very resistant for heat, moisture and sun rays. The ceramic tabletops will not be affected by weather conditions, so you can easily leave it outside throughout the year. Ceramic is a low maintenance material with a high level of scratch and abrasion resistance. Light weight and long lasting. The high quality ceramic adds elegance and weather resistance to any table. Two years guarantee.

Wicker

The PP wickerwork used in this range is extremely weather-resistant and of the highest quality. Take a look at the detailing of the wicker and be amazed about the quality. The wicker range is a fine piece of craftsmanship from our experienced weavers. Two years guarantee.

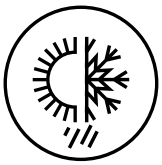
Sop

hie

This is Sophie

Colour

The materials of Sophie are colour-fast and dirt resistant. Ultraviolet rays will never make her lose her natural colour. Therefore Sophie's beauty will last for generations.



Indoor & outdoor

Sophie is built to endure in both indoor and outdoor spaces.

Scratch resistance

Due to the materials used, it's practically impossible to scratch Sophie.

Testcenter

Sophie is tested in our own Hartman testcenter on durability and ageing and degradation caused by light, temperature and moistere, following the Europian NEN-EN-581/ DIN-EN-581. The tests are based on use by persons weighting up to 130kg.

Excellent design

The ergonomic shape adapts to all body shapes and guarantees a balanced pressure distribution. The stable lumbar back support keeps the back in a total natural position for a satisfying sit.

Made in Holland

Sophie is made in Holland. The fact that Sophie continues to stay beautiful is due to craftmanship of the Dutch Hartman people and 50 years of resin knowledge and experience they have. After all, a modern look and feel should not go at the cost of long lasting quality. Sophie is designed for you, made to last.

In today's world where plastic is at the forefront of International media and politics; there is **No Time To Waste** when it comes to the recycling of plastics. Our 'No Time to Waste' initiative - the new Green Valley Chair- bolsters our mission to create the chair of tomorrow. We are dedicated to deliver continuous innovation in design with sustainable sourcing of materials and above all; respect for the planet.

- The Green Valley Chair is a regenerative product made from recycled (PP) plastic from our circular production facility in Holland.
- We are proud of our contribution into help solve the plastic waste problem. 3.5kg of PP plastic waste is used to make 1 chair, the equivalent of 700 botle caps.
- The Green Valley circular production model reduces the amount of shipping, resulting in a decrease of CO2 emissions by more than 5kg (1,5kg CO2 reduction per 1kg PP plastic).

But we're not done there... It is our mission to produce sustainable furniture from start to finish, that is why we have a 360° circular production model. We want to take care of the product we have originally introduced into the market. So when you have enjoyed your Hartman for generations and you want something new, you can return and recycle your old resin chair and we will recycle it back into the production of the Green Valley Chair. The Hartman Green Valley chairs both look and feel good in your garden or on your terrace.

Allwe

ather

STAIN RESISTANT

UV/FADE RESISTANT

BREATHABLE COMFORT

MOLD/MILDEW RESISTANT

WATER REPELLENT

Hartman All Weather is suitable for heavy use in extreme weather conditions and is resistant against and long use in the sun. The Sunbrella® fabric has a breathable function, therefore is does not develop any condens by warmth or moisture. Also after long use the fabric remains smooth, pleasant and feels comfortable. The All Weather sets are incredibly easy to clean.
